The Morgenthau Plan has not been abandoned. It has merely been **delayed by eighty years**, and is now being **expanded** to include the entire Europe and western Eurasia.

The fact that we have to be so careful and subtle about exposing the truth lest we be silenced at every turn is telling who controls us and who were really the bad guys.

My grandpa always confused me; he held Germans in very high regard while having spent time encamped and on the run. He hated the Brits and Americans with a passion, claiming they "played" the good guys. I am starting to understand him years after he has gone.

The book "Germany Must Perish" provides a chilling insight into the mindset that the American people were encouraged to hold long before anything whatever was known of the holocaust.

If you search "genocide of german people" or "german people killed in genocide" this is the only video that comes up. Everything else is about holocaust. This is seriously concerning, since each and every genocide is equally worth of studying, no matter what else has happened in the history. Thank you for your videos and for not being afraid of banned or demonetized.

It's pretty wild that not only did it just seem as if the German propaganda was right, but that it was factually correct. Like, it would literally pass a fact check.
